

# Sign Battle Has Just Begun

Mayor Gibson appointed a committee of ten to review the controversial sign ordinance. The appointments were made at the council meeting Monday night.

Serving on the committee will be Bill Rugg, Pete DeRosa, Charles Gehrken, from the chamber of commerce; Rod Anderson, planning director; Frank Carpenter and Bob Cameron, planning commission; Tom Harris, architectural commission; Mrs. Marilyn Blair, Audrey Perri and Richard Riley, representing the citizens; and Ronald Rossitter, councilman, heading the committee.

The matter came up at the meeting when Charles Milan, representing Richfield Corp., asked that his company's sign on Second avenue be approved for another year, as it has been in the past. He said he received a letter that said it was not going to be renewed.

There was a see-saw discussion among the council members about establishing a moratorium on the ordinance until the committee could study it.

Councilman Ronald Rossitter said, "There has to be a law which has to be enforced; we can't leave it and not do anything, rather than a moratorium. Let's take some official action."

NOT CAPRICIOUS  
Councilman Jim Christensen

said he favored rescinding the action on the Richfield sign until a sign review could be made. He then stated he did not think the sign ordinance capricious. "I was mayor when the ordinance went in and was approved. It was established by a committee who studied sign ordinances, held public hearings, and spent a great deal of time on it. I feel it was a good ordinance and it does protect all businessmen. It is not as restrictive as Montclair's. We did not push it down anyone's throat."

He was referring to a statement by one of the chamber members who said even though the chamber was represented on the sign committee, the council extensively changed the final ordinance. Mayor Gibson said, "The sign ordinance was not dreamed up, and maybe some changes should be made."

Tony Malone, manager of the chamber, then addressed the council. "I would remind the council that the business community is upset over the letters sent to them about their signs. There seems to have been a communication gap involved and we are just trying to put the letters in proper perspective with the ordinance."

NOT REALISTIC  
He further told the council

that it did not seem "realistic" to the businessman who when he changed or remodeled his store, often improving it, to be treated as a new business. "It tends to confuse the businessman. We just ask you look at both sides of the table," Malone concluded.

Councilman Christensen commented that the letter was not "good communication."

Councilman Zella Stone said "When the new shoe begins to pinch in some areas then we'd better make an honest effort to look at it."

## JUST REMODELED

Ralph Leacock, owner of Ralph's Sporting Goods store, told the council, "I guess I was singled out of the downtown area as I received one of those letters telling me my signs are illegal. Have any members of the city council seen my signs? Take a look and tell me if they are objectionable."

"I have just remodeled and not added one new thing. I think the store looks better now and since I have the oldest store in Upland, I thought I would update it, but I don't want to be treated as a new business."

Councilman Max Hawkins said, "We have a fine ordinance and it will probably not be changed too much. I wouldn't want anyone to be disappointed in thinking it will. Chances are it won't."

The date of the first meeting of the new committee has not been announced.

In other business, the council instructed Dr. Joseph Powers, who owns the Cornet building in the downtown area, to submit a rendering to the architectural committee for review and to take some positive action on the building or face condemnation proceedings.

Dr. Powers told the council that he thought the plans had been submitted to the planning commission. Elwin Alder, city manager, told the council members that the architect's office representing Dr. Powers refused to give the city the rendering, to which the doctor replied, "This is the first I knew about this."

He said a communications gap must exist between his office, himself and the city.

Councilman Jim Christensen asked that Dr. Powers and his representatives be furnished with a copy of the necessary steps to take in getting a project through the city.

The council members went into executive session to discuss "personnel" and when they returned to regular session a statement was made that "The council reaffirms its policy of good communications between the council members, city staff, city manager and the citizens."

SAVING DAYLIGHT -- Ruth Loeb and Chris Skinner, Upland high school seniors, remind Uplanders to turn their clocks ahead on Sunday, April 27, when 2 a.m., magically becomes 3 a.m. The lost hour will not be returned until next fall, but in exchange we will have an extra hour of daylight during the summer months.

### Markers Needed

This is a confession.

Your writer passed along the edges of eastern Upland along Foothill and turned south on Euclid Avenue driving over the freeway overpass twice within a period of a few weeks and did not realize he had been in Upland. He did see the revolving U, which has since been blown down, but that meant absolutely nothing.

Upland could very well use approach plaques or signs, if you will, on both east and west Foothill boulevard and at the city limits on Euclid.

Often these identification markers are made of flagstone and are very attractive. Glendora has attractive identification markers entering the city proclaiming "Glendora -- Pride of the Foothills." The new community of San Dimas has erected them at the Bonita approaches.

Perhaps some civic organization, the Jaycees, a woman's club or some other group could take on the assignment.

The city has gone to great lengths to landscape the center dividers and keep up Euclid Avenue. Going north on Euclid towards Foothill, there is an attractive floral designation of Upland, but to a fast-going motorist (and they all are on Euclid) -- it easily escapes attention. We are not the only one who has had the experience of passing through Upland and not realizing it. How much attractive markers would help to eliminate this problem, we do not know.

But we believe the suggestion has merit. Help us to know "where we are."

### Sex Education

Sex education in the schools apparently is coming in for another period of reappraisal. For a few years the issue has been quiescent. Since about 1964 the general trend has been "liberal" -- that is, public and private schools have been adding various courses ranging from a simple biological explanation of reproduction in earlier grades to discussions of social and psychological factors involving sex.

Recently, however, more and more groups have been mounting a counter-attack on sex education as it is being taught in the schools. Some of these groups are in fact right wing, and their criticisms are frequently so immoderate that they make a reasonable discussion of the issues difficult indeed.

But as the Wall Street Journal reports, six states are weighing action to study or restrict sex education within their boundaries, and Congress has before it a bill asking the withholding of federal funds from sex education courses or related teacher training.

The chief criticisms of present courses are that they try to teach too much too soon, that they tend to predispose youngsters to the erotic, and that interpretations of the role of sex in the individual's life and his relation to family and society may run against specific church teachings. Indeed, as reported, some sex education lessons are hard to justify. But it is hardly credible to label all such programs as part of "a Communist plot" as some critics aver.

It will be useful to the nation, as the topic continues to surface in coming months, to remember that the chief responsibility for sex education lies with the parents. It is they who should stress the clearcut moral requirements governing sexuality.

Also, a good deal of plain common sense will keep the discussions in proportion. The concept of normal, healthy sexual relations, reserved for marriage, is not really a difficult concept to explain or discuss.

It is helpful, too, to remember that, contrary to some current theories, the individual himself can govern the effect of sexuality in his life. No education in the area is complete without making clear to the child his ability and inclination to obey the moral law. He will then later be able to bring strength and tenderness to his marriage and defend it from any preoccupation with sexuality.

OVERHEARD AT A MEDICAL CENTER OFFICE

HONOR RUBEN AYALA

A street will be named in Chino this summer to honor Ruben S. Ayala, chairman of the San Bernardino County Board of Supervisors. Ayala served two terms as trustee on the Chino Unified School District and was the city's first popularly-elected mayor--and deserves the honor the community is conferring upon him.

In the same vein, we often wonder why so many school districts come up with such often-used names as Ramona, Central or the street on which the school is located.

Why not a man who contributed much to the community's education.

How about a Howard Cook school in Upland?

ATTRACTING INDUSTRY

For the past decade, Upland among other communities has been seeking light industry to ease the tax burden on the home owners.

During the current month, the city of Montclair added a new manufacturing business, Woods Motorhomes, which already has a payroll of 50 at its location in the 5500 block on Moreno and will have 120 within six months.

All this and a plaza, too.

LEAVE WELL ENOUGH ALONE

In the West End perimeter we have a woman mayor in Claremont, a woman Councilman in Upland, Zella Stone, and a large number on school board members.

But after reading a release from Scripps College, we trust the distaff side will stay away from writing releases concerning athletics.

In the mailbag this week came one from a feminine writer at Scripps College to wit:

The originator of the "alley-oop" pass and the first football player to block a field goal attempt at the goal post?????will speak in Balch Auditorium at Scripps College, Thursday, April 24.

POSTOFFICES NEXT

Now that our Congressman and Senators have taken care of flood control problems, . . . until the next heavy downpour. . . how about turning attention to the postoffices in the West End?

We have some sad sack situations in Upland, Montclair and in Ontario.

Half the time you can't park anywhere near the post office, and in Montclair, you need a PT to make it to the door in rainy weather.

The best facility, by far, is at Cucamonga.

## The Readers Write

Dear Editor:

On behalf of the Cucamonga-Alta Loma Junior Women's Club and the community itself, may I express our sincere and grateful thanks for the fine coverage given our recent School Board Candidate Forums.

Bobbe Monk is to be highly commended for her unselfishly given time on three separate evenings to photograph and report on the events. While our attendance was not an item to inspire pride of accomplishment, the wonderful and detailed articles in the Cucamonga Times got the word to a large segment of the population. As a direct result of the coverage, many people have favorably commented and we look forward to greater community support at our next endeavor.

Once again, many thanks, and please say a special thanks to Bobbe for us.

Most sincerely,

/s/ Cynthia Patterson (Mrs. Wendell W. Patterson)

## What's Doing In Upland?

JOIN SISTER CITY

It's good to see the Sister City committee become an important organization in the community. The officers and board are all very able people and we wish them a good year.

Let's get behind them by joining and taking an active part. The price is nominal when you consider the rewards you will reap. Individual memberships are available in three categories: regular, \$2 per year; sustaining, \$5 per year and sponsoring \$10 per year. Organizations wishing to join may do so for \$10 per year. William Rugg is the membership chairman. Contact him and be a Sister City booster.

HATS OFF

Hats off to Detective Jerry Wulf of the police department who was a mid-year graduate in Police Science at Chaffey college and recently was commended by the board of trustees for maintaining an A average during the past semester. He is one of the policemen of the city who goes to school on his own time. Sometimes it takes many years to get a degree, and they pay all of the expense of their education. Detective Wulf plans to continue his education at a four-year college.

## Foothill Footnotes

by Bobbe Monk

The Etiwanda Service Club is to be commended highly for helping Cindy French present her paper on bio-chemistry to the Junior Academy of Science at Iowa University this week. Through their efforts she received a donated round-trip to the university, and they provided \$100 for lodging and related expenses. It is good to see young people of this caliber get the assistance they need.

HOW ABOUT THAT? The Cucamonga-Alta Loma area now has two state Fire Marshals charged with seeing that the buildings you and I have access to are safe. Alta Loma Fire District Chief Eugene Billings was so honored recently. Cucamonga Fire District Chief Arvid Lewis also holds the title.

IT'S TOO BAD more candidates for school boards in the Cucamonga-Alta Loma-Etiwanda area didn't see fit to use the pages of the Cucamonga Times to relate their experience and aims. Did you know we have the biggest circulation in your area? Did you know that we're here to serve you, and to help you serve your community? Well, it's true.

## Sen. Coombs Introduces Tax Reform Legislation

Tax reform is still big news in Sacramento and Sen. Bill Coombs of San Bernardino County prepared to introduce his tax relief package to the state legislature.

"Since the Governor has decided not to use the recommendations of the Tax Advisory Commission," Sen. Coombs explained, "it puts my own tax reform program in a new light and it looks as if it may be incorporated into the Governor's tax relief program."

"Our bill, which I believe will give honest-to-goodness tax relief," continued Coombs, "lowers the property tax, eliminates the inventory tax and restores income and franchise taxes to their lower pre-1967 rates and rules."

Replacing the revenue lost by these changes would be a tax on gross margins on the sale of goods by business and industry and on business services. Although the tax is relatively new in the United States, it has been widely adopted in Western Europe where it is hailed as a completely "neutral" tax.

"In other words," the Senator stated, "it has less effect on the business and financial decisions that people make than any other kind of tax. This plan creates a tax system which is very sensitive to changes in the economy and provides permanent relief to over-

taxed property owners." Taxpayers wishing more information are encouraged to write Senator Coombs at the State Capitol in Sacramento (95814).

From Mrs. Mildred H. Fischer, Hutchinson, Minn.: I remember the good old days on the farm when herding cows was a regular chore. As soon as a crop was off the field, the cows were let out to clean whatever left that was eatable. Feed for livestock was scarce in those days and every bit had to be salvaged. There were no fences in those days, so it was our job to keep the cows within the confines of a particular field.

After school, Saturdays, yes, even on Sundays we had to herd cows. It wasn't too difficult because the cattle were usually hungry enough to spend their time eating instead of running around and when they started wandering it was time to bring them home.

We would bring a book or a game and spend the time pleasantly absorbed while escaping some of the more unpleasant tasks at home. Some times we would become a little too absorbed and look up to see the cows in a nearby cornfield which involved a merry chase to get them back where they belonged. We usually had the help of a well-trained cattle dog who would round them up for us. Once in a while, he would get too enthusiastic and stampede the herd and they would head for home at full speed.

Spring was a pleasant time to herd cows. When fall brought the cold winds, it became quite uncomfortable and we were glad when snow came to cover the fields and end our chore for the season.

## 'Message Received' Loud And Clear

"10-4," "Message Received,"

A program of highway safety for kindergarten through fourth grade was presented to students at Central School in Cucamonga Thursday morning April 17 by the California Highway Patrol.

Officers Bob Hutzinger and Ron Carroll, with an assist from "Pepper" their small safety-minded mascot, impressed on students the need for safety when walking or riding a bicycle.

The officers staged an "accident" at the mythical corner of "Elm and B Streets" on the school grounds, called in on the CHP radio to report the event and explained the procedure and the codes

used to the gathered classes.

About a half a dozen rules of safety, including looking when you cross a street, walking facing the traffic and the need for bike riders to obey the rules of the road, were emphasized. The students were urged to reply "10-4," which means "message received" if they understood the officers, and they loudly complied.

The program is given annually to about 18,000 students throughout San Bernardino County in the unincorporated areas. A classroom safety program is given to fifth and sixth graders in the county giving similar safety advice.

## Citrus Reading Classes Presents Three Plays

As part of the reading program at Citrus School three plays were presented recently by members of the fifth grade in Ed Morrison's reading classes.

Two of these plays were related to the nation's heritage. One play "Adventure for Gold" told of the early pioneers who left their homes in the east to help in the settlement of the west.

The other drama "John Henry and His Hammer" gave the groups an insight into the life of a miner in the coal mines in an amusing yet exaggerated form, but still showing the dangers of mining.

The third play "The Wise Pupil" showed how seven people were given money to buy an item which they thought could benefit them all of their life or part of their life. The teacher then checks each one as to the value of the wise use of his money.

A great deal of time was spent in making the scenery and obtaining the props to help make the plays more realistic. All the sets were built by the students. As the students did not have any funds available for this construction, they used their own resources in planning and obtaining the materials, substituting other items for materials needed, blocking out a

set, sound effects and costuming as close to the period as possible.

The cast of "Adventure for Gold" was under the direction of Steve Hollenbeck assisted by Katherine Ramsey and George Gerringer. The lead parts were performed by Steve Hollenbeck and Deborah Gemmill. The mother and father were portrayed by Eddie Clark and Nan Partington. Red, a country boy orphan was played by John Howard. Narration was Laura Dettelson and Suzanne Vizzini.

Other members of the cast were George Gerringer, Robert McKay and Steve Springer. Donna Cordaro assisted with the props and direction.

The cast of "John Henry and His Hammer" was under the direction of Lisa Van Dame and assistant director Cynthia Welkin. The lead of John Henry was portrayed by Mike Hawley. Harry Drake played the second lead Li'l Bill. Other miners included Dennis Frye as Mike Murphy, Gary Wolfenbarger, as Louie Schmidt, Kip Gerard as Frenchy and Bryan Wulf as Frank. Narration was in the hands of Lisa Van Dame, Pam Schnell and Linda Hilewich.

The cast of "The Wise Pupil" was under the direction of Sally Buchert. Robin Siskowski was the teacher, Carrick was Ray

Van Zant, Byrina was Jeanette Bullis, Dickson was Gilbert Moreno, Fuller was Scott Wilhelm, Longshanks was Doug Perry, Jonathan was Rolf Mobeg and Webber was Mike Thorsen.

The plays were presented before the students of the other grades in the school from third to sixth. Mrs. Susan Jones' pupils also participated.

Sherrie Benjamin

### Enrolls In College

Sherrie Benjamin, 1348 Toledo Way, Upland, is among students who have been accepted by Linfield college as members of its freshman class of 1969. She is expected to enroll at Linfield in September.

### Sirens Meet; Make Plans

On April 8 the monthly meeting of the Upland Sirens was held at Casa Colina Rehabilitation Hospital of Pomona.

After the tour of the hospital which was arranged by Mrs. Edith Seay, refreshments were served. Mrs. Howard Seay and Mrs. Merle Arneson were co-hostess.

There was a short business meeting and plans were made to spend time on Brownie Troop 1034. A bake sale was discussed and will be continued at next month's meeting.

Gifts were received by those who recently purchased a home and those who had new babies. There was a drawing and Mrs. Rodney Bubier was the winner.

### Antiquarians Meet May 1

Mrs. Henry Ogden of Upland will give a talk for the "Antiquarians" on May 1, at 9:30 to 12 noon in the Riverside Public Library at 3581 Seventh street.

She will give the "History of English Silver" with many examples to show the various types of workmanship of the different periods. She will also give ways of tracing the date and place of manufacture from the hallmarks on the silver.

"The Antiquarians" is an association of people interested in antiques which meets monthly. Members are from San Bernardino, Riverside, Upland, Claremont, Pomona. The public is invited.

### Catholic Federation

The Italian Catholic Federation, St. Joseph's Branch #216 of Upland, met recently at the church hall with President Joseph Palmisano presiding.

He thanked all the ladies who helped make the recent bake sale a success. President Palmisano also announced that a cash donation was made to the Stuart family of Mt. Baldy.

Mrs. Velma Gates, orator, announced that the group will receive Holy Communion on Sunday May 11 at San Secundo D' Asti Church in Guasti at the 10 a.m. mass. Refreshments will be served after mass at the home of Mr. and Mrs. William Gabaldo, 9797 Devon st., Cucamonga.

A hand painted picture, "Ponte Della Pietra," located in Verona, Italy was donated to the branch by Dorothy Clayton of Upland and was awarded to Mrs. Maria Abatti.

Alfonso Vagnozzi was elected to fill the post of second vice president.

Two new members were accepted by the branch. They are Mrs. Vittorina Salvato and Mrs. Andrea Cangemi. Mrs. Abatti has transferred from the Pomona branch.

### Commentator Warns Of News Management

At the April Luncheon meeting of the Upland Woman's Club Edmond Haddad, a news commentator for KPOL spoke on News Management.

He said news management can be attained by the use of words. In this era of revolution, some want to generate heat and do so by the use of such words as "explosive" or dramatic expressions.

News media can manage news by choosing the material to be used he said. Demonstrators and dissidents have found the news media a platform from which to sound their feelings. A small group will call a news conference. All media attend and give the publicity the groups desire. Rap Brown and Carmichael's images were created by television. At one time the news media felt the livelier coverage the better. There seems to be better management and editing of news material today Haddad indicated.

The news media should help people to think, he said. The great majority of our citizens get all their information from the TV or the radio. Haddad felt that the nauseating trivia should be eliminated from the press and news media. Petty events distort the important events. He suggested that informative articles buried in magazines could be reviewed to enlighten the public; that more

time should be spent on national issues; that issues should be shared by the public and that the public be informed of what the foreign press is saying.

Haddad also commented on current affairs. He said he felt the Vietnam war is being brought to a conclusion. He said the USSR is the greatest threat to peace in the world and that China frightens more by its talk than its deeds. Our respect of the Russian sphere of influence has permitted her to expand into the Mediterranean, Cuba, Latin America and Asia. Haddad told his audience. Our policy is one of detente with Russia.

On local affairs, he said the hearings on hunger should awake the nation. He felt the Negro would use the electoral process to better himself. Over compensation is evident now in dealing with the racial problems, but there is a great reservoir of good will, he said. He warned that it is the extremist that is the danger.

Some of our weaknesses are excessive permissiveness, apathy, degeneration he said. He felt that parents have abandoned raising their children.

Mr. Haddad ended his talk with a plea that people work for their beliefs. They must let their beliefs be known to the government, leaders, and the mass media. Public opinion can be a force, he stated.

## Pollution Serious Speaker Warns

(Ed. note: This is the last of a series of speeches given by Upland high school students who participated in the Upland Breakfast Lions Club speak-off. The students spoke on "The Hopes and Fears of Youth.")

Vern Dillenbeck, a senior at Upland high school plans to attend a junior college and then attend a university where he will seek a degree in mechanical engineering. He won an honorable mention in the contest.

He began his talk with the comment that storms bring many problems to civilized man. He then traced the path of the January flooding in Upland and said in part, "The terrific storm that hit us in January destroyed and caused all kinds of property damage.

"Homes were flooded, people were evacuated, perhaps one of you was forced to leave your home. Along with all of this was another real problem in many local neighborhoods as the use of public drinking water was denied to people because of pollution created by the storm.

"As close as San Antonio Heights, people were warned to boil their drinking water before using it. Now, you are prob-

ably asking yourselves, 'What does all this have to do with me?'

"Gentlemen, it is unfortunate to note that while we do not have storms like this every day causing pollution of much of our water sources, but in many parts of the United States today contamination of our water is deliberate. It does happen every day.

### UNKNOWN WATER

"One out of every two Americans is drinking water of unknown quality or water that may not measure up to federal standards.

"One significant factor emerging from a study shows that the areas requiring the greatest quantities of clean water have the least. More than half the faucets in Delaware, New York, New Jersey and Pennsylvania are pouring inferior water into the drinking glasses of the population.

He cited his source for the survey as a leading magazine which was substantiated by the United States Health Service.

Vern continued, "If a drought were to strike in New York, the city would face a water crisis. Even though the Hudson River were ample, it is too polluted for use. Nor does the city have provisions to supply water in such a crisis."

### NATION SCOURGE

"Water pollution is the scourge of our country," Vern went on. "It is no accident that water pollution is the heaviest in cities where 75 per cent of our population lives. Mother nature has no problem handling purification and small amounts of debris, but not the large amount that exists today.

"It is not uncommon today to see masses of dirty soapsuds gliding down Ohio's Cuyahoga river. These mounds of suds shimmering in the sewage infested river are found in Lake Erie, which is so polluted some scientists say it is almost dead. The Great Lakes once beautifully blue now abound with stinking waters, rotting algae and oil slicks.

"Even if the filth were turned off today, it would take ten years for nature to purify Lake Erie and renovation of the Great Lakes would cost at least \$15 million dollars.

"To solve these pollution problems, cities must turn to the science of biology, particularly ecology, which is the study of the interaction of living things both with themselves and their environment. If our cities are to survive we must plan them for a use and

**STUDENT SPEAKER** -- Vern Dillenbeck receives a trophy for participating in the Upland Breakfast Lions Club speak-off contest. He was one of four contestants who spoke on "The Hopes and Fears of Youth". Making the presentation is Fred Kramer, secretary, of the club.

# How much does it cost to run your TV set?

Less than 1¢ an hour—morning noon or night. Any size TV.

Quite a bargain, isn't it?

In fact, electricity in Edison areas costs an average family less per kilowatt-hour today than it did 10...20...even 30 years ago. And practically everyone today is using much more electricity—more kilowatt-hours—than ever before.

Take washing dishes. Few people owned electric dishwashers a decade ago. But now you see them everywhere. And you can wash a load for less than 2¢.

Or washing clothes. Remember when this was a hand operation? With an electric washer, you can now run through a load for less than 1¢.

Or shaving. Electric razor sales are booming. And you can shave all year for less than a dime.

In Edison areas, one of your biggest bargains is electricity.

It does so much for so little.

You can watch TV around the clock and it hardly costs you a thing.

(Except maybe a night's sleep.)

# Superintendent Reprimands Voters

ONTARIO -- The following statement was issued last week by Supt. Allan G. Smith of the Chaffey Union High School District after voters defeated a tax override in balloting Tuesday:

"The voters of the Chaffey Union High School District spoke very loudly and very clearly on Tuesday when they overwhelmingly turned down additional funds desperately needed to operate the high schools.

"As loud as the voice was, however, it is doubtful it will be heard in the political arena that serves as our legislature. One can only assume from the vote that the public here and in other communities is willing to sacrifice good educational systems in protest over national taxation pressures and our own botched up state tax structure.

"Another protest voice was heard against student violence and militancy but it seems strange that the Chaffey District students have been penalized even though control has been maintained.

"I can not help but feel that failure of local citizens to respond to local school needs is another step in the direction of state and federal takeover of our educational system.

"Education must be available and maintained if our democratic system is to survive. Limited funds will require drastic reductions in educational and extracurricular offerings as well as services provided to students and parents.

"The next month of budget planning will tell to what extent these changes will affect next year's program. We do know that this district has been able to offer a high quality educational program throughout the years because it has built a staff of competent and dedicated teachers administrators and classified personnel.

"It can continue to offer a quality program only if this staff can be retained. Everything possible must be done to keep the staff and compensate them for the extra burden they now must shoulder. Time does not permit the tax issue to be presented again to the public before the 1969-70 budget must be adopted.

"We must, however, present the matter before July 1, 1970, or the tax rate will automatically drop from \$1.70 to 75¢.

Should the public force that to happen, there will be no high school education available to the students in this district.

"We are thankful for the many qualified citizens who volunteered to serve on the high school board. Those elected are outstanding people and they will certainly need to be to cope with the problems ahead. We are thankful also for the many groups and individuals who recognized the need and worked diligently for passage of the tax proposal.

"We pledge to do the very best job we can with the funds available. These are fine communities we serve and our students deserve the best we can offer.

"One thing is certain. Negative votes will never solve the tax dilemma but will destroy eventually our educational system."

**News For Knitters**

The Claremont Parks and Recreation Department wishes to announce a change in schedule for knitting instruction as is listed in the Spring brochure. Classes will be held on Fridays, beginning May 2 and continue until June 13 (no class on Memorial Day, May 30). Classes will be held from 9:30 to 11:30 a.m. in the crafts center at Memorial Park. Cost for the 6 weeks of lessons has been changed to \$3.

Class instruction will cover basic knitting techniques, instruction for intermediate and advanced knitters and individual help with garments in process. Knitters are asked to bring size #8 needles and Sayrelle or 4-ply knitting worsted. Class will be limited in size so pre-registration is requested. To register visit the Recreation Division Office at 840 North Indian Hill Blvd., or call 624-4531, ext. 46 for further information.

The instructor for this class is Valeria Haughn who has won prizes in knitting at past Los Angeles County Fairs.

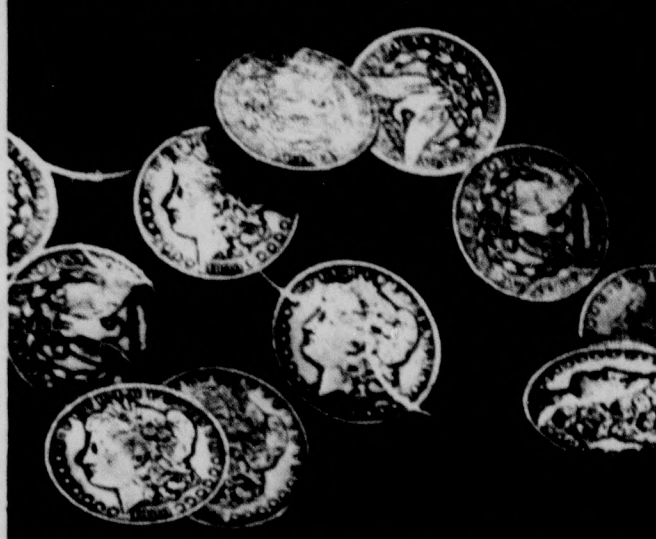

**Animal, Not Flower**

The sea lily is actually an animal. The featherlike arms which radiate about the head make the animal look like a flower and are responsible for the name "sea lily."

## Gordon Breaks Mile Record But Highlanders Lose Meet

POMONA - Angus Gordon's record shattering 4:26.4 mile went all for naught as Ganesha slipped by Upland's varsity track and field squad 63 1/2-54 1/2, Thursday afternoon in a San Antonio League outing.

Gordon ran his fantastic mile against his oldest and most competent adversary, John Gregorio.

Last cross-country season, Gregorio finished second to Gordon in their dual meet, third in the San Antonio League finals behind Gordon and fellow Uplander Bob Sos and fourth to Gordon's third in the CIF AAA finals.

In their most recent encounter, Gregorio once again placed second to the sophomore sensation but Gordon had to break

the SAL mile record to tie it. League record of 4:27.8 was set by Larry Ward of Chino in 1966.

Sos also contributed a victory for Upland as he outprinted his teammate Doug Slater to win the 2-mile in 9:57.6.

Mike Humphreys placed first in the 880 for Upland at 2:03.5, while John Bowser sprinted to victory in the 440 at 52.6.

Upland's Doran Hearn came within one-tenth of a second of tying the school record in the 120 high hurdles in running a 14.9, but still placed second to Giant Dean Lin-gelfelter (14.7).

Hearn placed second in two other varsity events, the low hurdles and the long jump.

Upland revenged its varsity defeat with wins

both in the B (56-38) and C (58-28) divisions.

Top B performers were Skip Stiffler, with a double in the 100 (10.3) and the 220 (23.3), and Rod Waller in the 660 (1:27.3).

Other B winners for the Green and White were shot putter Henry Garcia, Dewey Szemeyei in the 1320 (3:21.7) and long jumper Jeff Bennetzen (18.6).

Sprinter Dennis Dixon led the C's with a win in the 180 (19.3) and tie for first in the 100 (10.8).

Jerry Martinez went 42-2 1/2 to win the shot put for the Clan, Gordon Innes took the 1320 (3:30.7), Mike Vairin leaped 9 feet to win the pole vault and Mike Rhoutsong took the 660 at 1:35.0.

## Pomona Hurdler Sets SAL Track Records

It was a day of futility for the Montclair High track squad and shuffling of participants and events by mentor Harvey Goode for the best showing against a strong Pomona team. But the local coach's efforts went for naught as the Red Devils "wiped" out the Cavaliers--100-18, varsity; 90 1/2-4 1/2, Bees; and 57-29, Cees.

Montclair did manage three first place finishes in the varsity meet however, Mickey Senior won the 440 in 51.7; Fred Sorenson, the 880 in 2:01.3; and the Cavaliers took the mile relay in 3:31.7.

Other placers for Montclair included Richard Landry, third in the mile; Bill Daniels, third in the shotput; and Nick Mendoza, third in the high jump.

## Phillips Records 3rd SAL Baseball Victory

MONTCLAIR -- Right-hander Tom Phillips stopped hard - hitting Claremont, 3-2, Friday afternoon in San Antonio Baseball League action and virtually eliminated the "Pack from any title hope.

It was Phillips' third SAL win of the season without a loss. He gave up seven singles, while striking out eight. He had a live fastball all afternoon and an effective curve that got him out of trouble when he needed it.

Cavaliers scored two of their three runs on Claremont mistakes and pushed

across the winning tally in the sixth.

Greg Campbell singled to open the inning and moved down to second when Bob Winkler laid down a perfect bunt for a hit down the third base line.

An attempted pickoff play at second base backfired when third baseman Bill Mills was charging the plate expecting the bunt. Campbell moved to third on the mental error before scoring.

Claremont tried to come back in their last at bats, but fell one run short.

## Upland Ties For First In Own Relay Meet

UPLAND - It was a bit windy, but the Upland Relays were a success.

Claremont and Upland High tied for the sweepstakes trophy in Division I, but the big winner of the day was Victor Valley which swept the A, Bee, and Cee classifications.

The meet, in contrast to regular dual meets, featured 30 running events, 28 of which were relays.

Four meet records fell, including the varsity shuttle hurdles, varsity four-man two mile, Bee long jump, and varsity discus.

Azus ran a 58.8 for the shuttle hurdles, erasing the old mark of 58.9 set by Charter Oak in 1967.

### TOPS MARK

Upland came back to win the four - man two mile with a 8:27.3 clocking, topping the old Chino mark of 8:31.3 set in 1967.

Alan Todd of West Covina jumped 22-0 3/4 in the Bee long jump to better Doran Hearn's (Upland) mark of 22-0 established last year.

And Loren Pompa of Upland broke the meet standard for the discus with a 159-2 1/2 toss, eclipsing the old mark of 153-3 1/2 set by Guilfoyle of Upland in 1968.

Upland's Bob Sos won the meet's only individual running event, taking the two mile run in 9:47.5 to set a school record and 1969 Pomona Valley best.

Claremont placed in each one of the six relay events, capturing two firsts, a second, two thirds, and a fourth.

Upland managed four places, three of them firsts, a second, two thirds, and a fourth.

Only in the shuttle hurdles (where Claremont came in second and Upland didn't place) were the two San Antonio League teams shutout.

### BIG WINNER

Victor Valley, mean - while, won 12 events for the day in the A, Bee, and Cee classifications.

In other results, Garey (Division II) took three firsts (varsity sprint medley, and the Bee eight-man mile and 880). The latter set a school record with a 1:34.3 time.

Chaffey draws a welcome bye from the rigors of the 20 game grind next Tuesday. Next game for the Red and White is next Friday at home against Orange Coast.

Fullerton hit starter Terry Tuley hard in the first four innings to take a 4-0 lead. Greg Sinnard and Marv Owens hit back-to-back doubles in the first round. Owens doubled again in the sixth off Wenger for the Hornets' final run.

Fullerton Coach Mike Sgobba elected to save his ace, Al Hrawbosky, until the damage was done off starter Jim Jackson. Hrawbosky retired the last 11 straight batsmen.

PANTHER PATS -- Cronan tripled in the second but was picked off third... Chaffey's infield was at its best... "We just can't get started until we're behind," mused Lowder.

## Flood Damaged Homes Will Be Re-Assessed

On motion of Supervisor Frank G. Bonelli, the Los Angeles County Board of Supervisors today adopted an ordinance authorizing County Assessor Philip E. Watson to reassess homes that suffered damage of more than \$1,000 in this year's disastrous storms.

"The action was taken pursuant to special State legislation embodied in SB 257 which was recently enacted and signed by the Governor," Bonelli explained. "This legislation permits counties to grant relief to storm victims in counties declared a disaster area by the Governor, as was Los Angeles County after the heavy storms that arrived last January."

The Supervisor urged all homeowners who had property damage of more than \$1,000 prior to April 1, 1969 to report the address of the property to be reassessed to the nearest of fifteen Assessor's regional offices, or the main office in the downtown Hall of Administration.

Under the new legislation, after the property has been reassessed, the taxes for fiscal 1968-69 will be computed again, with one-third of the total tax bill being figured on the new assessed valuation. Thus, if a downward assessment is made, the property owner will receive a refund on taxes he has already paid.

Homeowners asking for reassessment should report their particular loss as soon as possible, and should provide the Assessor's office with all repair bills they have paid.

## Quimby Pushes Bill To Extend Educational TV

SACRAMENTO -- Legislation extending California's educational television system for public schools has been introduced by Assemblyman John Quimby (D-Rialto).

The measure would authorize school districts or county boards of education to purchase broadcast time or to own, lease and operate television transmitting facilities for use in instructional and teachers' in-service educational services.

Any broadcast time, Quimby said, would be purchased from non-profit educational television stations or from facilities operated by other school districts or counties.

## The 3-Day Arizona Caper

# Out Of The Fog And Smog Into The Valley Of Sun

By Bill Mason  
Admittedly Southern California's weather in late March, April and early May often leaves something to be desired.

The valleys are foggy if it's cool and if it warms up the smog appears. Intermittently the high winds come along to churn up both.

Want to get away from it all on a three-day safari?

**VALLEY OF THE SUN**  
Often overlooked by Californians by the shadow of Las Vegas glamor advertising is the Phoenix, Scottsdale area -- about the same distance away, but with infinitely better weather and more for the youngsters to do than in the Nevada gambling center.

You can board the friendly Air West lines Flight 488 at 7:10 a.m. (PST) and be at Phoenix's attractive Sky Harbor at 9:35 (MST)--and you avoid that dreary, monotonous, see-nothing desert drive, both common to Phoenix and Las Vegas.

Don't worry about ground transportation -- Hertz, which boasts as No. 1 and you can see why, if you are in any manner involved with this car rental firm, will take you even to the extent of providing a plastic rain coat, in case you need one.

### FAMILIARIZATION TOUR

Yours truly made the Arizona Desert Safari, April 10-12 in the company of 15 owners or operators of travel agencies, most of them located in Eastern Los Angeles and San Bernardino Counties -- and travel agents, with a critical eye to everything -- can give you great insights on how to go and what to do after you are there.

"Familiarization Tours" are old hat to travel agents and agencies -- and some of them extend to Europe, the Far East, Hawaii, Florida, New York and Jamaica. Briefly described, the tours are arranged by airlines and cooperating hotels and motels at a reduced rate -- so that the agents can intelligently discuss these areas with their clientele.

The "tours" are not all play and no work--nor are they all work and no play but one thing for certain is--they are informative and when a travel agency representative describes in details the accommodations of the airline and the facilities and activities of a resort motel or hotel--they have seen it first hand.

"Travel - happy" Americans are more and more relying on travel agencies -- these people are experts. They can cut the red tape. Chances are they have been there. And most important, they relieve your mind of travel and hotel-motel accommodations -- which, if fouled, can ruin any vacation.

**BACK TO ARIZONA**  
Somehow, you have a more personal touch on a small carrier such as Air West.

We have been on the big ones and about flipped our collective lids waiting for a cup of coffee as the stewardesses (sometimes two or three) never seem to get around to you. It's different on Air West. Shortly after take-off your stewardess is around to ask you whether you want coffee or a cocktail.

That personal touch is lost in the bigness of the trans-continental lines.

No. 1 -- and they don't let you forget it in action or thought -- Hertz, that is, picked up our luggage at Phoenix and after a morning tour of the Frank Lloyd Wright designed Biltmore and the charming Camelback Inn, the familiarization tourists were taken to Carefree, Arizona -- about 22 miles from everywhere.

At Carefree you'll find a wonderful resort motel with a small village nearby. The Inn is operated by Western International Hotels--and no one told us why they decided to build it away from the cities. At least you

**SUNSHINY OUTLOOK** -- Here are the members of the Arizona Familiarization Tour, posing at the Caravan Inn pool in Phoenix. Front row, left to right: Jack Greenbaum, San Francisco, manager of agency and tours for Air West; Mrs. Jim Gates, San Bernardino; Ruth MacNeill, Sierra Madre; Bea Arutunian, Abbey Travel Bureau, Upland; Mrs. Gwenn De Haven, Upland Travel Bureau; Jim Gaffney, Serendipity Travel, San Bernardino; Mrs. Pat Maxwell, Frances Paul Travel Service, Claremont; Mrs. Dukes, Fasnacht Travel, Pomona; Bob Smith,

World Travel, Pomona; Bill Allen, District Sales Manager Air West, Ontario. Second row, Jim Gates, San Bernardino; Mrs. Cathy Connors, Ontario Travel Bureau; Mrs. Ruth Beglau and Darrel Beglau, Arrow Travel Service, Ontario; Hugh Bogle, Bokay Travel, Corona; Clem Lau, Clem Lau Travel Service, Redlands; George Dempsey, Hertz; Jim White, Regional Sales Manager, Air West, Phoenix; Ernie Ray, Hertz; and John Kozma, District Sales Manager Air West, Phoenix.

are "away from it all" and the isolation didn't discourage two conventions General Electric Computer Division and Borax which were in progress.

### CAREFREE INN

Like most resort motels in Arizona, Carefree is designed for patio and outdoor living and people swim there -- in Las Vegas, all you ever see is some shapely show babes in bikinis (which on second thought isn't too bad to feast your eyes on. But swimmers in Las Vegas, they are not.

At the Carefree, you lounge, you read, you drink, you telephone out on the patio near the pool. Outdoor living in the extreme degree.

A short distance away, Western International has the International House with a South American room, an African room, etc.--where you can play amateur gourmet and whatever you order you'll

### SECOND DAY

The Air West itinerary reads 2200--rest of evening free which literally translated means "90 per cent head for the bistros and renew acquaintances."

Next morning your Hertz and Air West hosts are right on the dot to stow a way your luggage after breakfast.

Then another tour starts--this time to Del Webb's Mountain Shadows--an outstanding example of how attractive resort living can be -- just build your weekend around the swimming pool and patio and your attractive unit nearby and the beautiful gals in swimming pools (sounds repetitious doesn't it?)

Nearly all of the hotels and motels have sales representatives and social directors. Camelback Inn even has a Hopalong College for the kids--and they are gently but firmly removed from your sight while you oggle and swim and the kids love it. (the college -- that is).

### FIFTH AVENUE

During the morning of the second day, the caravan of familiarization tourists was taken on a tour of the Fifth Avenue Shops in Scottsdale -- one of those you "can look, but don't touch galaxy of shops". Anything ever designed for the tourist from clothing to gim-micks to jewelry may be found there.

That is Barry Goldwater country, partner, and the community of Scottsdale with its resort attractions has awakened Phoenix to what it has been missing.

Don't tell a soul, but it sprinkled the following morning and despite what the chambers of commerce will print denying this, it was true.

Sort of reminded us of the story of the Kansan during the Dust Bowl days of the 1930's. After four and one-half years a few drops of precipitation fell and one hit this farmer on the face. It so shocked

him that he fell over in a faint--so his wife rushed out, grabbed a handful of dust and threw it on his face to revive him. Oh well!

After the Scottsdale tour, the gang checked in at the Caravan Inn on Phoenix's motel row -- another super resort type accommodation where everybody chooses to live outside. Pretty soon they'll figure out a way to warm up the patios at night -- and just skip building rooms and apartments.

### DESERT AT DUSK

If there is a time that the magic of the desert captivates you it is at sunset. No two sunsets look alike in desert country, and the one our party saw while journeying to the Mining Camp Restaurant at the base of Superstition mountain must be the one to defy description.

The dinner at \$2.75, all you can eat at the Mining Camp, including beef, chicken and ribs -- also fits in that category.

Next morning after breakfast at the Caravan, we departed via Air West at 10:15 Mountain time and arrived back here at 10:45 Pacific Time, right on the nose.

### NO LONGER SEASONAL

Arizona resorts, once were open from Decem-

ber through April -- now

nearly all of them operate throughout the year thanks to air-conditioning and they are making it attractive price-wise to get you sun-lovers there after the season with the ultimate in Western resort living and golf courses.

One thing for certain --you can "safari" to the Valley of the Sun via Air West and enjoy "living it up" with your family at considerable less cost than if you headed for the gambling casinos -- and meanwhile your wife and children would have

much more to do and see. Taking care of the tour at the airports and aloft were the congenial Air West, westernly attired, crew of Bill Allen, Ontario Dist. Sales manager; Jack Greenbaum, manager of agency and tours, San Francisco; John Kozma, Phoenix area district sales manager.

On the ground, George Dempsey of Hertz did the honors admirably.

Making up the safari were these area residents:

Mr. Darrel Beglau-Onwer, Mrs. Ruth Beglau, Arrow Travel Service, 8475 Sierra avenue, Fontana, California 92335. Mrs. Pat Maxwell, Frances Paul Travel Service, 143 Harvard avenue, Claremont, California 91711.

Bea Arutunian, Abbey Travel Bureau, 71 W. Foothill blvd., Upland, California 91786.

Mrs. Cathy Connors, Ontario Travel Bureau, 812 N. Euclid ave., Ontario, California 91761.

Mr. Bob Smith, World Travel Bureau, 250 S. Garey street, Pomona, California 91766.

Mrs. Gwenn DeHaven, Upland Travel Bureau, 247 N. Second ave., Upland, Calif. 91786.

Mr. Clem Lau, Clem Lau Travel Ser., 298 E. Citrus avenue, Redlands, California 92373.

**SHARING PEANUT BRITTLE** -- Bob Smith, co-owner of World Travel Bureau, Pomona, shares some peanut brittle along Scottsdale's famous Fifth Avenue with Virginia Dukes of the Fasnacht Travel firm of Pomona.

## Virginia Ellis, Solo Violinist, At WE Symphony Concert, Apr. 26

Virginia Ellis, who will be solo violinist with the West End Symphony Orchestra at the April 26 concert, is hardly a newcomer to local audiences; she has served as Concertmaster for the Orchestra since 1967. She is anything but a newcomer to the concert stage, having made her first appearance with a symphony orchestra at the age of 4. The Saturday night concert at Upland High School will give local concertgoers an opportunity to hear the talented and attractive violinist perform Wieniawski's "Souvenir of Moscow." The remainder of the program announced by Orchestra conductor Robert Cole includes Wagner's "Prelude to Die Meistersinger," Tchaikovsky's "Symphony No. 5 in E Minor," and "The Emperor Waltzes" by Strauss.

A child prodigy, Miss Ellis first appeared with the Hollywood Baby Orchestra when she was four and later spent ten years as Concertmaster and the soloist with the California Junior Symphony under the direction of Peter Meernblum. At the age of twelve, when she began teaching violin, one of her first students was Marni Nixon.

As an adult, Miss Ellis made two concert tours, one of which was conducted jointly with the late Percy Grainger, and performed as soloist in concerts throughout Los Angeles accompanied by Diani Lynn and Andre Previn. She has performed with outstanding symphony orchestras under noted conductors including Stokowski, Ormandy, Mitropoulos, and Beecham. In addition, she has performed in the orchestra for operas which have featured Dorothy Kirsten, Rise Stevens, Roberta Peters, and Nadine Conners.

Miss Ellis' varied career as a violinist has included movie appearances with Elizabeth Taylor, Betty Davis, Frank Sinatra, Jimmy Durante and other Hollywood greats. She was concertmaster of the orchestra in "They Shall Have Music."

ic" with Jasha Heifetz and she has played in ensemble at Las Vegas Desert Inn.

The wife of Paul Beaver of Riverside, Miss Ellis is a member of the Riverside Symphony

and is Associate Concertmaster of the Redlands Bowl Symphony. She is also a member of both the Redlands Bowl and Riverside Opera orchestras.

Tickets for the April

26 concert at 8:15 p.m. in the Upland High School Auditorium will be sold at the box office that evening. This will be the final concert of the current season.

## "Sound Of Music" Next For Civic Light Opera

When "The Sound of Music" opens in the California Theatre April 25, it will prove that not only is truth stranger than fiction, but much harder to put on stage.

If the story told in this musical which is being produced by the San Bernardino Civic Light Opera had been merely imaginary, there would have been nothing to it—just the combination of hard work and inspiration that goes into writing fiction all the time. But "The Sound of Music" is about real people and events and legal permission must be obtained from real people. The real people were members of the famous Trapp Family of Singers, a pair of adults and a staircase of seven children who, from 1938 to 1945, were one of the most popular concert attractions in America.

Starting in the Civic Light Opera stage production will be June Roselle who recreates her version of the plucky, cheerful and music-filled heroine "Maria". Civic Light Opera presented "The Sound of Music" first in 1964. Tall handsome television and film personality Rhodes Reason will co-star as the stern sea Captain, a wi-

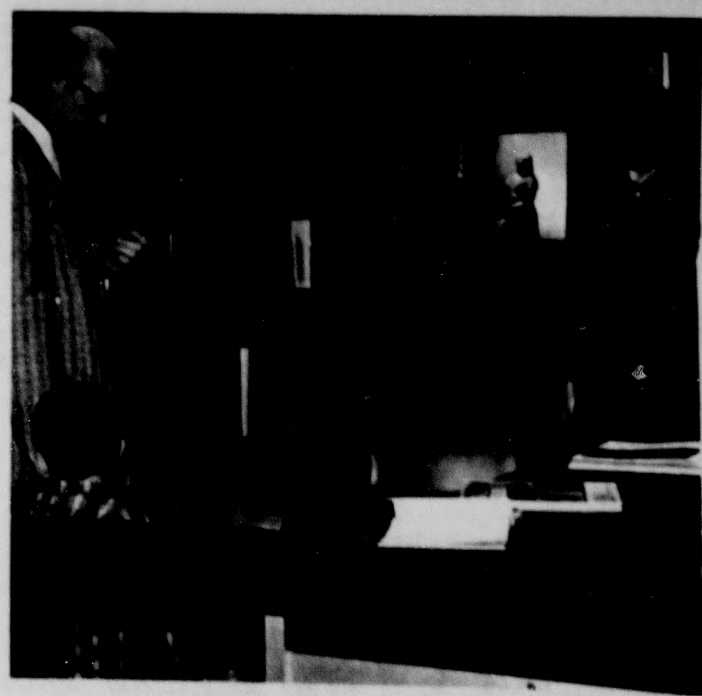

dower and the father of seven.

Virginia Jaeger will portray the warm-hearted Mother Abbess, a role that has brought considerable fame to the Southland singer-actress.

The beautiful and rich widow, "Elsa Schraeder", who is the rival for the Captain's affection will be played by Marlene Moffitt and John Bernabei will play the concert manager "Max Detweiler." The seven von Trapp children will be Laurie Vander Linde, Mark Miller, Robin De-bendahl, Tom Carpenter, Janet Allen, Julie Ellison and Suzanne Clifford. Others included in the cast are Paul Hough as "Rolf", Joan Wing as the housekeeper "Frau Schmidt", and Franklin Chambers as "Admiral von Schreiber."

Tickets for the musical which continues through May 3 can be secured from the box office located at 2079 North E, San Bernardino, by writing to Civic Light Opera P.O. Box 606 or from the Ontario Chamber of Commerce.

The Craters of the Moon National Monument in Idaho covers 83 square miles.

A bouquet of tulips or daffodils will stay fresh up to six days if you put them in water the minute you bring them in from the garden.

Choose a vase that is deep enough to support these relatively tall blooms and big enough to keep stems from being crowded. Daffodils do best in only one or two inches of water, while tulips like to be up to their heads in water.

amount to \$10,203,841 on the basis of the \$1.70 tax plus 22 cents in special purpose taxes.

This figure, however, would include \$300,000 now invested in a school site on the north side of Philadelphia street between Campus and Sultana avenues.

Projected expenditures for the next fiscal year

amount to \$9,993,105. This means the district would have \$210,736 left over if the southeast Ontario site were sold.

However, Smith pointed out, the projected income figure includes nothing for operating reserve, which normally should amount to about 10 per cent of the budget. Further, it provides no in-

crease in funds for equipment purchases, maintenance services or salary increases in the current austerity budget.

It provides only the regular salary scale increment for classified and certificated personnel, Smith said, noting that there has been a 4.6 per cent cost of living increase.

Every one per cent increase in the salaries of district personnel costs \$76,590, the superintendent said.

In a memo to the board, Smith listed the following possibilities for reducing expenditures:

--Maintaining certificated (teaching and administrative) staff at the present level or below.

--Placing athletics after school to provide use of coaches in the academic program.

--Having department heads teach a full day with no periods for supervision or evaluation.

--Giving counselors and administrators part-time teaching assignments.

--Reducing the student

school day from six periods to five while continuing the teachers' schedules at five periods of instruction a day.

--Reduction or elimination of transportation services.

--Curtailment of the district subsidy for the athletic program.

--Reduction of summer school salaries to hourly

rates. --Providing replacement had employment. --Eliminating service references. --Further supplies, textbooks, books and. --Con-

...Smith pointed out that  
...elimination of the sum-

...would cost money instead  
...of saving it because of  
...the method the state uses  
...in compensating districts  
...for summer school en-

...Stressing the need for  
...continuing quality educa-

...would like to have the

...Board members tended  
...to lean toward a reduction  
...to a 5-period day for  
...students as one means of  
...budget cutting.

Trustee William C.  
Draper observed that  
"the people mandated it.  
If they want a \$1.70 edu-  
cation, that's what they're  
going to have to take."  
Board President Paul  
H. Cushing said, "This  
is not punitive action, at  
all. If the taxpayers want  
to do this, they have the  
right to. We want to give  
the student the best edu-

cation we can for the  
money."  
Robert Haage, presi-  
dent of the Associated  
Chaffey Teachers, said  
the organization had a  
meeting scheduled for  
Tuesday, Apr. 23, and  
would make its recom-  
mendations to the board  
later.  
In related action, the  
board voted unanimous-

ly to support Assembly  
Bill 409 which would pro-  
vide \$372 million in state  
funds for public education  
instead of Gov. Ronald  
Reagan's proposal, which  
earmarks \$105 million  
for this purpose.

## Social Science Interns At CP 'Getting Involved' In Community

Getting involved in the "real thing" is helping provide a link between the community and the social service student at California State Polytechnic College, Kellogg-Voorhis, Pomona.

Over 125 junior and senior social science majors are participating in a two-year social service internship in Los Angeles and San Bernardino counties. Under the program, the students have an opportunity to get involved in a variety of real community experiences which prepare them for careers in social service.

The students work directly on social problems at least eight hours per week under the direction of an agency supervisor, explained Stanley Cohen, coordinator of social services at Cal Poly. Some of their jobs include emotional counseling, gathering background material for welfare agencies, and advising teenage gangs and clubs.

As a two-year internship program, placement for the second year can be more sophisticated than for the first, he said. The intern brings more experience with him the second year and is able to handle a more challenging assignment. The internship gives students a first-hand look at social work.

Sylvia Mackey, of Monterey Park, and Arthur T. Lopez, of Ontario, are two interns working with juvenile clubs in Los Angeles County.

As advisers with United Way's Special Services for Groups, the two senior interns serve as guiding influences for

groups of teenagers and young adults.

Last fall, Miss Mackey requested work in a Spanish-speaking community. She was assigned as an adviser for a group of culturally deprived teenagers in the East Los Angeles area ranging in age from 13 to 15 years.

Given the names by the local teen post director of teenage girls who needed help or guidance, Miss Mackey made house calls encouraging the teenagers to attend her weekly meetings.

"It took several weeks before I really could get the meetings started," she recalled. "At their homes, the girls seemed interested. But, no one came to the meetings. I had a difficult time breaking down barriers. I had to prove I could be trusted."

According to Miss Mackey, their non-attendance was the girls' way of testing her. Eventually her determination gained their respect and they began attending the meetings.

"These kids really need help," she explained. "Many have run away from home. Others have internal family problems in addition to their academic problems."

I was lucky, I never lived in a barrio, Miss Mackey said. That type of neighborhood is rough -- especially at night. It is hard for teenagers to grow up in such an area.

In addition to being financially deprived, the girls get no attention at home, she explained. I am trying to broaden their outlook by weekly meet-

ings, discussions, counseling, and field trips.

Each week, the club gathers for a two-hour meeting in the local teen post. Activities and discussions during these meetings have included the proper use of makeup, the dangers of drugs, and boys.

Earlier this year, Lopez worked with a group of teenage boys, 16 to 19 years old in East Los Angeles. Most of the boys in his group were referred to the Special Services for Groups by the Los Angeles County Probation Department.

The worst problem with most of the boys was drugs, he said. They were also very suspicious and felt discriminated against by the county Sheriff's Department.

Like Miss Mackey, Lopez rang doorbells in an attempt to attract the boys to his weekly meetings. For several weeks he was puzzled over their refusal to attend.

"I had real trouble getting them to accept me," he said. "I discussed the problem with my intern adviser and we decided the boys might be rejecting me because I wore a suit to the meetings. I stopped wearing my suit and I seemed to be able to outwardly relate better to them."

Originally formed as a car club, Lopez's group gradually dwindled in number and fell apart when only one boy was able to obtain a car.

Last month, Lopez was assigned to a group of young adults (men and women 16 to 26 years old in the Baldwin Park area. The club, The Respec-

tables, was already formed when Lopez was assigned to it as an adviser. It is currently in transition to a car club.

According to Lopez, he will be there to guide it and help with the transition when called upon by its membership.

Both Miss Mackey, of 1480 Piedra Way, Monterey Park, and Lopez, of 737 S. Plum, Ontario, agree that the Cal Poly social service internship offers a valuable opportunity for students to observe and participate in social service work before graduation.

"I have decided that I would like to work in the Spanish-speaking community when I graduate," Miss Mackey said.

Other social service interns are working for local school districts, county probation offices, county welfare agencies, parole and community service agencies, local police departments, continuation high schools, mental health clinics and Operation Bootstrap.

Social service is currently an option with the social science major; however, it will become an independent major in September.

Hundreds of others like it will be on display at the California Museum of Science and Industry in Exposition Park from April 20 through April 27, in the twelfth annual Bonsai exhibition, "Trees With Soul." This tree belongs to John Naka, her grandfather and president of the California Bonsai Society, which sponsors the exhibit each year.

### Paul Walkers Return From C.A. Voyage

Mr. and Mrs. Paul D. Walker of Claremont have returned from a 23-day voyage to Central America and the Caribbean Islands.

They left aboard the Italian liner S. C. Carla and sailed to Acapulco, their first stop. The trip continued southward to the Caribbean Sea through the Panama Canal. They docked at Curacao, Trinidad, and Barbados Islands, the farthest point east, then backtracked to St. Thomas and wound up their voyage at Kingston, Jamaica.

The Walkers spent two days on that island, then flew to New Orleans, motoring to Natchez, Miss., where they attended a two-day azalea festival, after which they flew back to Pomona from New Orleans.

Walker is president of Pomona First Federal Savings.

## Big Mardi Gras Plans At UCLA This Weekend

Jimmy Durante, Jack Benny and Judy Garland are among many entertainers who have made outstanding contributions to the history of UCLA's MARDI GRAS.

MARDI GRAS, patterned after the New Orleans festival, first began in 1941 when the student-operated UniCamp needed financial assistance. The success of the event, which included a masquerade - dance, costume contests, and Dixieland bands, led to more activities and plans for the following years.

In the late '40's, famous celebrities began headlining MARDI GRAS. Red Skelton, Van Johnson, and Stan Kenton and his band added new spirit to the festivities, while attracting huge crowds.

During the '50's, many new games and booths were initiated. At the "Church of the Square" booth, marriage ceremonies were performed which offered just-married signs and marriage certificates valid until 2 a.m., when the "bride" and "groom" turned back into UCLA students. The Kiss-o-meter, gambling booths, Panda Pitch, and the exciting Tilt-a-Whirl ride were among the many additions to Mardi Gras.

The '60's have seen a tremendous expansion of the traditional event. Taking place on the giant UCLA Athletic Field and featuring three sessions instead of the original one - night celebration, MARDI GRAS has become a year round effort utilizing the help of the whole community. Performances by Glen Campbell, Louis Armstrong, Soupy Sales and Joanie Summers in '63 drew 30,000 and raised \$30,000 for the blind, diabetic and underprivileged UniCampers.

Today, known as the world's largest collegiate activity, MARDI GRAS will be held on April 23-26 at UCLA. Continuing its tradition MARDI GRAS '69 will feature fun entertainment for the whole family.

**NEW BANK DATA PROCESSING CENTER**—New data processing center (above) designed to speed service of client account reporting and insure maximum accuracy has been set up by Inland Bank at Ontario, Calif., for system-wide use. Shown beside sorter are, left, Raymond Haas, vice president of Inland Bank and Ontario manager, and A. Michael Clearman, computer center director. Computer, says Bank President Wilson H. Asdel, will also offer soon a wide range of services to Pomona Valley and West End (San Bernardino County) businessmen.

## Expand account Plan Offered By Inland Bank

Did you ever get caught with your credit card down on the dresser top and without enough balance in the checking account to cover the new Easter outfit for the college daughter?

Inland Bank is going to fix that. The Pomona Valley-West End (San Bernardino County) independent announced today that it is offering customers a new account—expanding service which will enable them to write checks without fear of overdraft by having the amount in excess of balance covered by a transfer from a Master Charge credit card reserve.

Wilson H. Asdel, President, said that the only limit on the excess of checking balance is the maximum allowable limit on the credit card itself. The name of the new service, Expandaccount, has been registered by the bank, Mr. Asdel said.

Customers will receive a memorandum from the bank by mail showing when funds are transferred from the Master Charge reserve to the checking account to cover the excess.

The bank executive said the service, as adopted to assist customers with purchases by check when their balance isn't large enough or when they forget their credit card.

The Valley Community Theatre will open its production of the Neil Simon hit Broadway comedy, "The Odd Couple," this Thursday, April 24 at 8:30 p.m. complete with the traditional opening night champagne party to which the audience is invited to meet the cast.

Directed by Thurman Brown, "The Odd Couple" stars Jack Fisher and Andy Case. Gwendolyn and Cecily will be played by Dorothy Evans and Sharon Cox. Murray and Speed will be played by Al Tiernay and Gerald O'Conner. Roy and Vinnie will be played by Don Welsh and Jerry Kahn.

Tickets are available at the box office on show nights, or reservations can be made by calling 622-6954. ## Bill Cosby Due In Claremont

CLAREMONT—When Bill Cosby, popular comedian, recording star and co-star of television's "I Spy," comes to Bridges Auditorium on May 2, he will be bringing with him a varied and wonderful assortment of characters.

There will be Noah, building the ark right on stage. Weird Harold and old Fat Albert will be there along with Bill's brother Russell. Yet only Bill Cosby will be on the stage.

The audience will meet the others because Mr. Cosby is a story teller with a gift for making his audience see something of themselves in his funny tales. Anyone who, as a kid, has ever gone

to a horror movie and been afraid to look, or remembers the fat kid on the block, or has used a bed as a trampoline, will see it all again.

In his Claremont appearance, Mr. Cosby will give two performances on May 2, one at 7:30 p.m., the other at 9:45 p.m. Tickets are \$2.50, \$3.50, \$4.50 and \$5.50. Tickets are now on sale at Bridges Auditorium Box office. Call NA 6-4523 for reservations. Sponsored by the Claremont Men's College Jazz Concert, under the auspices of the CMC student body, this performance promises to be a sell-out. Hurry and get your tickets while they are still available.
